HERE'S the POINT

By SPENCE HELD

See where the Navy has a 60-year supply of canned hamburger.

O. K., 59 years and 11 months, the man said. But that was last year, and the total was 886,020 pounds — maybe they've embalmed some more in the meantime.

It looks like canned hamburger is our secret weapon, hey? Offhand, I can't figure just what they plan to do with it; but certainly the Pentagon owes us an explanation.

Perhaps we could ship it to Africa. Instead of a quart of milk for every equatorial hot tot, how about Hamburger for Hungry Hottentots?

* * *

Yeah, and I'm tempted to view with alarm that 3-year-old resident of San Diego who pulled a fire alarm box the other day. He apparently stood on the seat of his tricycle to reach the box, and called out three fire companies.

Where did he get the idea—Superman or Mighty Moppet?

* * *

I got a postcard from Hank Francis, of Richmond, Calif., saying he planned to fly down here for the Aztec lettermen's reunion at State College Saturday. "I will expect to see you there," he wrote.

Well, that's a cinch . . . Along about 1945 I got a phone call from a guy who said, "I don't know whether you remember me or not. This is Hank Francis."

A modest fellow, this Francis. Here we had huffed and puffed and sweat and bled for dear old State, only about 20 years before, and he wondered if I remembered him.

Haw!

Hank also rounded up Johnny Hancock, Julian Pohl, Paul Van Doren and Joe Vurgason, and we kicked the gong around.

But that was 10 years ago . . . Vurgason died April 7; he was the former publisher of the National City News, and the past president of the California Newspaper Publishers Association.

He worked hard all his life. When he attended State he had a small print shop at his home, as I remember, and was self-supporting even then.

One of the items on Saturday's agenda is a track meet between State and Arizona.

As an alumnus of both schools, I can't very well lose this one, it says here. Actually, I hope State beats 'em.

3 North Park Speakers At Chamber Tues.

Three representatives of the North Park Business Club will speak at a general membership luncheon meeting of the Ocean Beach Chamber of Commerce Tuesday noon, May 3, in the Kiwanis Youth Building.

They are Douglas McElfresh, past president; V. R. Linn, president, and Roy Starr, chairman of the Business Promotion Committee.

Harry La Dou, president of the O. B. Chamber, said the trio will explain the North Park organization and what it is doing to promote business in that area.

He urged that every Ocean Beach business establishment be represented at Tuesday's meeting, either by its owner or another representative.

Jim Noel is program chairman. Promotion of Ocean Beach will be discussed, including use of neon signs, development of a large beach playground, and planning "the type of beach resort we want here."

Council Lets Contract For Groin Construction

Construction of a rock groin (jetty) at Ocean Beach is expected to be started within a month following action of the City Council Tuesday in awarding a $27,540 contract to the V. R. Dennis Construction Co.

The 530-foot groin will be built at the foot of Cape May Ave., extending almost due west into the ocean.

It will be designed to prevent sand eroding along the beach. Sand from the Mission Bay Channel dredging will be pumped onto the beach between Cape May and Newport Aves. A big pipeline already has been laid on the beach for this purpose.

Construction of the groin is expected to require about three months.

The Dennis Co. bid was the lowest of three submitted to the City purchasing office.

Meanwhile, the City Council also has adopted a resolution to open the Mission Bay Channel as soon as dredging operations are completed in June. It has been closed since 1951 because of dangerous currents and sandbars.

The Ocean Beach Chamber of Commerce has been active in urging construction of a rock groin to stabilize the local beach. Tom Drake, 1954 chairman of the Chamber's Beach Improvement Committee, worked hard on the project, and Harry La Dou, Chamber president, and Bill Knopp, 1955 committee chairman, have devoted time and effort to it.

Little Theatre Memberships On Sale Here

Subscribing memberships for the "University and Community Players," new little theatre group being formed on the California Western University campus, are now on sale in the Point Loma and Ocean Beach area.

Carl Glick, instructor in creative writing and drama at the university, who is organizing the new group, said that purchase of a one-dollar sustaining membership will entitle residents to two tickets to the little theatre productions.

A volunteer membership committee has been organized to sell the memberships under the chairmanship of Mrs. Robert Kircher of 3020 Quimby St.

Other members of the committee include Mrs. Virginia Stewart of 4073 Hawk, Mrs. S. Dunham Wilson of 3902 Lomaland Dr., Mrs. Maggie Jennings of 1007 Cordova, Mrs. Robert Landis of 940 Gage Dr., and Mrs. Cornelia Simington who lives on the university campus.

Residents and university students will join in the little theatre productions. "You never get too old to enjoy acting," Glick said, "and we're holding all our rehearsals at night for the convenience of businessmen who are taking part."

Further information about the group can be obtained by calling Glick at AC-2-6807. Backstage workers are also needed.

Present plans call for the new group to present three one-act plays next month followed by a major production.

Due to a limited seating capacity in the university's auditorium only 175 tickets will be issued for the one-act plays.

Intense Yellow Run Reported At Coronados

Another intense run of yellowtail at the Coronado Islands this week played havoc with the qualifying list for the first period of the $25,000 San Diego Yellowtail Derby, but the Ocean Beach-Point Loma sector still was strongly represented despite numerous casualties as a result of the soaring minimum weight.

As the result of a take of 634 yellows last Saturday and an even better catch last Sunday, low weight was in excess of 24-6 early this week and still going up.

M. W. Young, 4566 Del Mar Av.e, qualified a 24 pound 4 ounce yellow last Saturday but remained on the list only one day. Still safely within the fold early this week were: C. E. Myhrvold, 4948½ Niagara, 29-7, Russell Light with a 26 pounder, and Paul Mayercik, 3111 Ingelow, 25-6.

Top yellow checked in last week was a 29 pound 12 ouncer caught by George A. Lee, Bakersfield, and the smallest of five weekly prize winners was a 26-2.

Total yellowtail catch for the season through last Saturday was 6344, compared with 4061 for the same period in the record year 1954.

In adition to the fine run of yellowtail, log barracuda and Spanish or Jack Mackerel also moved into the Island waters to enliven proceedings.

Future Teacher Gets Experience At Loma Portal

A future teacher from Point Loma, preparing at State College for her classroom career, is busy gaining practical experience with pupils at Loma Portal School.

As an education interne or "practice teacher," Miss Carol Shea, daughter of Mr. and Mrs. Wesley P. Shea, 3121 Homer St., teaches reading, language arts and physical education each school day during the spring semester, under supervision of the regular teacher.

Prospective teachers at State College are given ample opportunity to learn to understand children and work effectively with them at many age levels. Hundreds of these teachers in the making have found their practice work with small fry not only interesting but also extremely valuable in their educational preparation.

They begin by observing children both inside and outside the classroom at the Campus Laboratory School. They first learn to relate theory to practice under the direction of the school's teachers and a staff of specialists.

In one course they participate in classwork with children in the school five days weekly for a semester. As they grow in knowledge and skill they assume increasing responsibility.

When this participation phase is completed, they are ready for internship in tecahing—final step in the elementary teacher training program.

Miss Shea is a graduate of Point Loma High School, where she was a member of the Modern Dance Club, Sceptics, and the orchestra. She is a junior at State College and member of Delta Zeta, Westminster Club and Treble Clef.

WHAT DOES YOUR DOLLAR BUY THRU WELFARE DEPARTMENT?

The Department of Public Welfare is responsible for the following: Old Age Security, Blind Aid, General Relief, Work Services, Legal Services, Accounting, Adoptions, Foster Home Licensing, Child Welfare Services, Crippled Children's Services, and Aid to Needy Children.

Let's look at what happens to your tax dollar spent under one of these programs, the Aid to Needy Children Program.

The average family receiving Aid to Needy Children in San Diego County, State statistics tell us, has 2.4 children. A typical case might be that of Mrs. J., a widow who, without resources, is faced with raising her two children, Billy, 7, and Mary, 5.

Mrs. J.'s budget is figured with a food allowance of $52.30 a month, which will give her $12 a week for food for three people. This amount never varies, not even in December when Christmas means cookies and other extras for the children. Her clothing allowance is $19.20: extra clothing needs for the family at Easter or Christmas, Brownie dresses or Scout uniforms must all come from this same $19.20 for the three of them.

$50 For Rent

Mrs. J. is allowed $50 each month for rent, which means, with present rental conditions in San Diego that she will be lucky to find a furnished place with more than one room. A maximum of up to $75 could be allowed if rent is unobtainable at the $50 figure, although Welfare expects a family of this size to find rental for less. She is given $8.10 for all utilities—summer or winter. An allowance of $14.40 is made for household operations, which includes minor repairs of any kind, entertainment, transportation, and all other incidentals.

All this gives Mrs. J. a grant of $144 a month. If she needs medical care for herself or the children, she, if eligible, is expected to go to County Hospital. If an emergency medical need should arise or some other special need of the family, the social worker, after verification could allow up to an additional $18 for such medical needs.

Never could the total amount allowed for this family exceed $162 per month. (The average monthly earnings of a factory worker in San Diego are $335.)

Now that you know what Mrs. J. and her two children get from San Diego County, just how much is this costing you? California State Government pays $63, the Federal Government pays $49.50, and the local San Diego County Government pays $31.50 to make up Mrs. J.'s monthly check of $144. Of course, you do actually help pay all of these taxes, but San Diego County pays only 21.5% of the total amount received by Mrs. J. The State of California contributes 43.3%.

(This State has endorsed the nationwide movement to assist children in their own homes since May of 1913, during the term of Governor Hiram Johnson.) The Federal Government, which authorized this type of aid for children and their mothers through the Social Security Act passed by Congress 20 years ago, contributes 35.2%.

Now what are you really buying with this money—it certainly is not luxury for those in need. No, it is merely the basic need for the less fortunate children of our community. It is buying the bare necessities to keep a mother with her children through a period when she would not be able otherwise to hold her family together.

By an analysis made in October, 1954, the Department of Public Welfare found that approximately 45% of the families receiving Aid to Needy Children were receiving for less than one year. The constant effort of the Welfare Department workers is directed toward aiding these families to become self-supporting, at all times keeping in mind what is best for children..

The majojr purpose of this Aid to Needy Children Program is to: (1) Meet the financial needs of the families served; (2) Rehabilitate wherever needed; and (3) Try to avoid family breakdown, such as delinquency.

An exciting and busy schedule is in store for the lucky girl. King's donated its facilities and the owners and waitresses worked tirelessly throughout the day, assisting the Kiwanis members and Kiwani-Annes.

Mrs. Riegel Trains Dana Glee Voices

Watching a backdrop gradually begin to fall toward the singing boys glee club, during a performance, is hardly an experience that Mrs. Veta Riegel would recommend. "It was the worst moment in my conducting career," she commented. "There wasn't time to move; it all happened so fast I just kept on conducting. The backdrop missed the back row of boys; a few were startled momentarily by the plop, but we kept right on."

Many people in the Point Loma area have enjoyed the twice yearly performances put on by the boys and girls glees during the Christmas and Easter seasons, and the hundred boys and girls have found it a thrilling experience. Besides these two public performances, Mrs. Riegel conducts programs for the PTA and for the yearly musical festival held at Dana. At these festivals the hundred or so boys and girls, mostly eighth graders, participated with like groups from Pacific Beach Junior High and Montgomery Junior High.

Besides teaching the glee clubs, Mrs. Riegel teaches general music classes to seventh, eighth and ninth graders. For her training she attended the University of Kansas at Lawrence, Kansas, where she majored in music and minored in education. She is a member of Mu Phi Epsilon, the national music sorority. Before coming to Dana she taught in Kansas and in Escondido, California.

After every performance that Mrs. Riegel conducts, the general comment of the faculty is, "It is amazing what Veta can do with those young voices."

Well Known Quartet To Sing Here Sat.

Radio's beloved Voice of Prophecy King's Heralds Quartet will make a personal appearance at Ocean Beach in a musical program on Saturday, 11:00 a.m., April 30, at the Seventh-day Adventist regular weekly worship hour, held in the Methodist Church, corner of Sunset Cliffs and Saratoga Streets. The public is cordially invited to attend.

These four young ministers of song herald the world's best-loved hymns and gospel songs every Sunday morning in musical support to the coast to coast radio messages of H. M. S. Richards, Voice of Prophecy Speaker.

In addition to their work in English, the quarter provide three or four selections for each of the fifty-two recorded programs prepared each year in Spanish, Portuguese, and Japanese, for release on overseas radio stations.

Gospel songs are but sermons set to music, and the King's Heralds—Bob Edwards, first tenor; Bob Seamount, second tenor; Wayne Hooper, baritone and arranger; and Jerry Dill, bass—herald Christ, the King of heaven, to many far and near.

By tuning in next Sunday to Station KHJ, KFXM, at 0:30 a.m. you will hear favorite gospeled songs sung by the King's Heralds.

CUTTING OUT a giant key for Point Loma and Ocean Beach residents to attend the annual open house at State College Sunday (May 1) are local college coeds (left to right), Lois Hebner, 415 Rosecrans; Mary Ward, 4444 Long Branch, and Patricia Curtis, 1224 Devonshire. The college will celebrate its 58th birthday from 2 to 5 p.m. with exhibits and demonstrations planned by 25 departments. The pubblic is invited.

MULLING WITH MULLER

By Edna M. Muller

Read an article which advises us to select beech, birch, horse chestnut or holly for shelter in a thunderstorm—if a tree must be a refuge. Seems these trees have been found to be less susceptible to lightning than oak, elm, pine, poplar, maple, ash or spruce. To me, taking shelter beneath a tree is dangerous—besides you'd get mighty wet looking around for the right or safer tree!

* * *

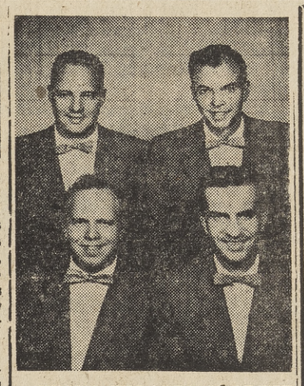
Ever know it to fail—on the day when you're obliged to give a small talk or speech your voice isn't too good because of a cold? The next time this happens you'll find it helpful to suck on a lump of sugar or a piece of lemon beforehand.

* * *

Indian summer is so lovely! Why not plan a Halloween party outdoors this year. Come to think of it—there will be no worry or trouble then when it's time to duck for apples! A simple menu, which means fun for the hostess too: rolls and hot dogs, warmed shoestring potatoes, apple cider and toasted marshmallows. And, don't forget when it's time for the ghost stories—throw driftwood crystals on the fire!

* * *

A new book by Paul Litchfield, "Industrial Voyage," is an absorbing account of a New Englander who went to Akron, Ohio, in 1900 and helped to develop a struggling 1½-year-old company, "only a jump or two ahead of the sheriff," into the world's largest user of rubber. The transplanted Bostonian, who couldn't afford to purchase a copy of his class yearbook when he graduated from M.I.T., tells simply and frankly the revealing side of business often hidden. The autobiography, packed with excitement of discovery and success, and lessons learned by disasters and setbacks, makes pleasant and stimulating reading.



KING'S HERALDS QUARTET comprised of Bob Edwards, Bob Seamount, Wayne Hooper and Jerry Dill, will appear in Methodist Church Saturday for the Seventh Day Adventist regular weekly worship hour. The event begins at 11 a.m.

Through an oversight we hasten to amend, it has been omitted that Dorothy Brattin, was named the manager of the new Sample Shop on Newport Ave. Mrs. Brattin, a resident here for several years lives at 5043 Cape May Avenue.

Mr. and Mrs. W. C. Canaday and son, Roland, came here from Wadsworth, Nev. and are at home in the 4500 block on Orchard Ave. They have lived in Ocean Beach previously, however.

Mrs. Anny Zwickenpflug of Mannheim, Germany is here in California for the first time visiting her sister, Mrs. C. W. Smith, 4614 Saratoga Avenue. This is the first time the sisters, have seen each other in twenty-six years, and the trip from Germany by air took only two days. Mr. and Mrs. Smith are the owners of Smith & Son Jewelers. The local couple are enjoying watching and listening to Mrs. Zwickenpflug and the Smiths' grandchild play and converse. The visitor from across the water can only speak German, and the child only English, yet each understand each other.

Mr. and Mrs. Don Rumbaugh, recent newlyweds from La Mesa have purchased a home in the 1900 block on Venice. Mr. Rumbaugh is at Convair and his wife is a student at State College.

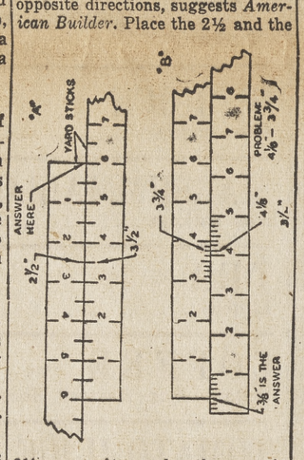
Handy Jim's FIXIN-UP TIPS For the Home

Yardstick Addition

THE handicrafter can make simple additions and subtractions with two rulers or yardsticks, put together as a simple slide rule.

To add 2½ and 3½, place the rulers so the numbers face in opposite directions, suggests *American Builder*. Place the 2½ and the 3½ opposite each other, as in illustration. The answer, 6, will be indicated at the end of the ruler.



To subtract, turn the two rules so that the two sets of numbers read in the same direction. Suppose you want to subtract 3¾ from 4⅛. Move the rules so these numbers are opposite. The subtracted answer, ⅜, will be shown at the end of the ruler.

The telephone call that made Joanie's heart jump

Joan might be the girl next door. At 14, she's cute as anything. And you should have seen the look on her face the night Joe, one of the fellows in her class, called to invite her to the next school dance. Outwardly, Joanie seemed calm. But when her Dad nodded "yes" to her, she was almost speechless. After all—a first date happens but once. And when you stop to think of it, isn't it true that telephone calls herald many a big moment in our lives—reunions, weddings, births? Yet consider how little your telephone actually costs for all the ways it serves you. Isn't it one of today's best buys? Pacific Telephone works to make your telephone a bigger value every day.

Business Operation Course Now Taught

San Diego Junior College and Vocational School, 835 Twelfth Avenue, announces a new course in Operating a Small Business. The Class will meet on Thursday evenings, May 5, 12, 19, 26, June 2, and 9, 1955, from 7:00 to 9:00 p.m. Arnold V. Bergeson, Merchandising Instructor at San Diego Junior College and Vocational School, is the instructor.

All persons interested in operating or working in a small business are eligible for the course. This is one of the series of five courses in Sales Promotion which may be taken for a Sales and Merchandising certificate. However, a person may take any one of them separately.

Creative Selling, a short course for Salesmen, will feature films, demonstrations, and discussions. The class will meet on Wednesday evenings, May 4, 11, 17, from 7:00 to 9:00 p.m. The instructor will be Arnold V. Bergeson, Merchandising instructor at San Diego Junior College and Vocational School.

Parliamentary Procedure Course Set For May 9th

There will be a Parliamentary Procedure course offered at Dewey Elementary school, starting May 9th. Mrs. W. P. Shea, Parent Teacher Information Chairman, will teach the class, which is sponsored by Loma Council. All PTA members are cordially invited to attend. This is a most interesting course, Mrs. Shea being careful to keep it from becoming dull. Classes will be held on Mondays and Thursdays, May 9, 12, 16, 19, 23 and 26, so the six week course will be completed in three weeks. Hours will be from 9:30 to 11:30, child care will be provided.

It is hoped many PTA members, whether or not they are holding PTA office now, will attend this class. Any meeting is more interesting when one understands proper procedure.

HEALTH FOR ALL

TAKE A DEEP BREATH

We don't think much about breathing. Our lungs usually work for us without conscious orders from the brain. It is only when breathing becomes difficult that we stop to think of the complicated and delicate structure on which we depend for life itself.

So delicate is the fabric that the pressure of a small amount of air can cause a lung to collapse. The lung cavity is protected by the strong bony cage of the ribs, but sometimes a disease such as tuberculosis, a tissue defect, or a wound will allow air, blood, or pus to get into the space around the lung and force it to collapse.

Even when one lung is partly or totally collapsed, a person can get on reasonably well with the other. In treating tuberculosis, a lung is sometimes purposely collapsed to allow it to rest, and so give the diseased parts a chance to heal. For many years lung collapse, either temporary by forcing air into the lung cavity, or permanent by removing part of the ribs, was the only safe surgical treatment of TB. Today, with the use of anti-tuberculosis drugs, the surgeon can often cut out diseased parts of the lung. However, there are cases where this cannot be done and collapse can be more successful. In a new type of operation, collapse is maintained by putting into the chest cavity some material such as plastic balls.

Usually a collapsed lung will re-expand slowly as the air about it is absorbed, and normal function will be restored. But pressure over a long period may result in thickening, scarred membrane around the lung, permanently constricting it. Dur- World War II an operation was developed to free the lung of this scar tissue. Now a lung that has been totally collapsed for 20 or more years can sometimes be re-expanded.

Medical science is constantly learning more and more about our lungs and how they work. to give us healthier, happier lives.

(This column is sponsored, in the interest of better health, by the San Diego County Tuberculosis and Health Association and the Peninsula News.)

An auxiliary entrance, to lessen front-gate congestion on peak days, will be in use at the Southern California Exposition & County Fair at Del Mar, June 24 through July 4.

SEVENTH-DAY ADVENTIST welfare workers unload one of 500 family-size tents which the church gave to help 8,000 people left homeless and destitute by a recent flood that wiped out a low slum section of Mexicali, Mexico, across the California border from Calexico. The woman and her 6 children were sleeping without shelter in an open field when the Adventist welfare workers found her. Members of the Ocean Beach Seventh-day Adventist Church are supporting the Mexicali welfare project under the leadership of Mrs. F. F. Oster, welfare director of the local church. Local members paid for seven tents, sent a check for $52.50 and have twenty-five springs and eight mattresses ready for shipment at this time, as well as food, clothing, and other furniture which has been collected for the cause, according to Mrs. Oster.

Wallpaper Links Past With Present Furniture

Wallpaper is an ideal way to link something elegantly decorative out of the past ages with the very modern present day in your rooms. Here a very new design in wallpaper shows soft green leaves in an open-air treatment on a creamy white background in the dining room, coordinating beautifully with a colorful print shown through the doorway on the walls of the library-sitting room.

The lacy-like delicacy of the leaves and the overall "softness" of the design in the dining room paper tones down the severity of the modern blue-green leather covered console and the very plainness of the walnut dining table.

Again, tying in the past with the present, the very old china cabinet in a soft blue-green color lives happily with the more formal pattern of the 18th Century wallpaper in the adjoining room.

This paper, with its neatly drawn figures of a man in a high hat and a woman all in blue encircled by a wreath of greenery ties in with the wreath-like leaves of the dining room paper. The colors used in this old world paper are complementary, too . . . the soft blues of the lady's costume, with scatterings of yellow flowers . . . the gentleman's blue trousers, chartreuse-green coat, black hat . . . the wreathes or rosettes of green, all on a lovely white background. It's a delightfully picturesque paper reproduced from a design made during the Directoire period in France and was found in Versailles covering a child's trunk.

Carpeting in a light beige color ties in with the overall color scheme and with the background of both wallpapers.

KEEP TEA FRESH, EXPERTS SAY

The people who know good tea have this important advice for every family that serves tea. Buy it fresh and then keep it fresh. Tea is fresh if it comes wrapped in sealed aluminum foil. But it is up to you to preserve its freshness once it's home. Store it in a closed cannister. The cannister can be any container at all, so long as it's spotlessly clean, thoroughly dry and has a tight-fitting lid.

Use Common Sense Afloat

KNOW YOUR BOAT
Every boat has its limitations. Learn what you can expect from your boat.
BALANCE YOUR LOAD
Distribute weight evenly in the boat — from side to side and from bow to stern.
WATCH THE WEATHER
Head for shore before a storm breaks. If caught out, seat passengers on floor.
KEEP LOW
And step in the center when boarding the boat or changing seats.
HEAD INTO THE WAVES
If waves are high, head your boat at an angle towards the waves at slow speed.
USE THE RIGHT MOTOR
Too much power can damage your boat—may even swamp it. Look for OBC recommended horsepower plate.
DON'T OVERLOAD
Seats do not indicate capacity. Two or three adults may be a full load under many conditions.
AVOID SHARP TURNS
Fast, sharp turns are hard on equipment — and sometimes on people. Take it easy.

Follow the eight simple rules shown here for more safety and fun afloat this season, says the Outboard Boating Club of America, national organization of outboard boat and motor owners. Boating is the safest of outdoor sports, says OBC, if you'll use common sense and courtesy.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

Already Washington prepares for great debate late this summer when United Nations will be brought before Congress. Occasion will be appropriation request for U. S. share in maintaining U. N.

* * *

Senator William Knowland (R., Calif.) is expected to spearhead attack. It is not hard to imagine what "one worlders" and other global schemers will say about Sen. Knowland.

C. W. Harder

* * *

Yet fact remains despite American hopes, aspirations and good faith that attended birth of U. N. in San Francisco, organization has been a failure in solving world problems.

* * *

Sen. Knowland is already on record opposing continuation of forum in New York for Russians to blast U. S. at every occasion.

* * *

As evidenced by President's remarks on wartime meeting with Marshall Zhukov it appears obvious Russian mind is incapable of understanding any strong nation permitting such vehement attacks to be made on itself within its own boundaries.

* * *

In addition, many authorities maintain UN is downright dangerous to U. S. safety inasmuch as Congress has failed to pass Bricker amendment, or similar legislation to safeguard U. S. citizens from loss of their constitutional rights through UN actions which would supersede all U. S. federal and local laws.

* * *

During UN's ten years existence, American taxpayers have poured millions into organization, not counting billions of dollars and thousands of lives thrown into United Nations "police action" in Korea.

* * *

Many Washington observers feel concept of UN is inferior to that of old League of Nations. In League, weapon of economic sanctions to preserve peace was recognized even though not invoked due to timidity.

* * *

However, it is felt use of economic blockades today with Red China needing food, with Russians facing starvation, would do much to bring about honorable world peace. However, too many nations of free world whose industrial capacity was built up by U. S. foreign aid grants are too eager to trade with the communists to expect use of this bloodless weapon.

* * *

Thus ten years of UN have failed to make any great accomplishments, and cost to U. S. has been heavy.

* * *

Leaving aside wisdom of permitting persons from all the world to enter U. S. with special immunities as UN personnel, the great steel and glass birdcage on the East River has been hatching on U. S. soil many ideas foreign to American way of life.

* * *

It is significant that one of major accomplishments of UN has been setting up of a cooperative store for its employees. Thus socialistic methods of business have been created on free American soil under banner of UN.

* * *

Undoubtedly, as freely predicted in Washington, when Sen. Knowland launches his attack on the UN, some will try to make it appear he is also capable of assailing Mother's Day.

* * *

However, despite emotional appeal of world peace, it will be a time to analyze debate from viewpoint of cold business logic.

The KANGAROO

This is the jumpy jerk who drives by leaps and bounds—from one stop to another. At the first faint glint of green at a stop light—whoosh! He's off like a rocket! This bounder, like the real kangaroo, sometimes carries his young with him. The kid in the pouch is safer!

Oranges
WERE GROWN BY THE CHINESE 4000 YEARS AGO. TODAY, THE U.S. PRODUCES MORE THAN ANY OTHER COUNTRY.
ORANGES ARE ONE OF THE MOST IMPORTANT SOURCES OF VITAMIN C. THIS VITAMIN IS ESSENTIAL FOR PERFECT HEALTH. ONE MEDIUM ORANGE SUPPLIES OUR MINIMUM DAILY REQUIREMENT.
COLUMBUS CARRIED SEEDS OF THE ORANGE TO THIS HEMISPHERE WHEN HE ESTABLISHED A SETTLEMENT ON THE ISLAND HE CALLED HISPANIOLA AND WHICH WE NOW CALL HAITI.
FRUIT, BLOSSOMS AND LEAVES APPEAR ON THE ORANGE TREE AT THE SAME TIME.

COMPLETES COURSE

ATLANTA GENERAL DEPOT, Atlanta, Ga.—Private David Clark of San Diego, California recently completed the Machinist Course at The Ordinance Automotive School here.

Private Clark, who is the son of Mrs. A. V. Seebach, 4642 Muir Avenue, is one of the more than 70,000 men from all over the world who have been trained at the School since its inception in 1941.

Not Hot-Rodders, Say Teen Drivers

Adult Americans may be surprised at one result of a national survey of licensed teen-age drivers. Eighty-two percent of them —boys and girls—are definitely opposed to "hot-rodding" on regular highways. Only 13% of those queried said they were drivers of "hot-rods."

The survey, conducted by Fact Finders Associates, Inc., New York, also revealed that 70% of the youngsters had never been in an auto accident, and nearly 60% insisted that, contrary to statistics, they are not more responsible for fatalities than other age groups. Here are typical reasons given for their lack of faith in accident figures:

"We have better nerves and eyes than older folks, our reflexes are faster, and we're able to think and act quicker."

"We have more sense. Like when we get sleepy—we stop and grab a cup of coffee. The only time my father stops for coffee on a trip is when it's time to eat, even though he's been on the road several hours and his eyes are getting droopy."

"When accidents happen and we're involved we automatically get blamed."

"We don't take chances and weave in and out like the grown-ups."

"A few reckless teen-agers who break the rules give the rest a bad name."

"The statistics must be wrong —there aren't as many teen drivers as there are grown-up ones."

**ARE YOU "SWEET 75?"
IS YOUR MOTHER?
YOUR GRANDMOTHER?**

Any woman born in 1880 can qualify for a wonderful vacation, all expenses paid, to Chicago. It includes network TV and radio appearances and prizes, and she will be guest of honor at the annual convention of the Photographers' Association of America convention and Diamond Jubilee celebration in Chicago Aug. 15-19.

All you have to do is have a photo taken by a member of the Association. This photo will be entered in the national contest. If you win—and there's no reason why a Peninsula woman shouldn't win — you will fall heir to the vacation trip, honors and prizes.

"Holly," at Studio of the Cliffs, 1801 Sunset Cliffs Blvd., would like to see you. Stop by the studio or call him at AC-3-5778.

Remember—any woman born in 1880 is eligible.

A Cake of Company Elegance

Apple Sauce Filled Spice Cake

YOU'LL HAVE FUN making this cake. It turns out high and prideful, rich and handsome—a cake of company elegance. Even if you never baked a cake before in your life, you can make this one and have it a delight to serve . . . to guests any time . . . to the family whenever the mood strikes you.

Item one—the spice cake itself is a packaged cake-mix. No problem there. Item two—that deep and luscious filling is canned apple sauce which you can buy in any grocery store. The apple sauce lends a delicate moistness and keeping quality to the cake as well as that good apple flavor. Item three—the frosting is a simple brown sugar froth knifed on in thick swirls. Result—a real stand-up beauty of a cake that's downright delectable eating.

APPLE SAUCE FILLED SPICE CAKE

- 1 pkg. spice cake mix
- 1 cup canned apple sauce
- 1 teaspoon grated lemon rind
- 1 tablespoon lemon juice
- 2 tablespoons cornstarch
- * Brown Sugar Frosting

Bake spice cake according to directions on package. Cool layers. Combine apple sauce, lemon rind and juice. Soften cornstarch in a little cold water; add to apple sauce. Cook until thickened, stirring constantly. Cool; spread between layers. Frost top and sides of cake with frosting.

*** BROWN SUGAR FROSTING**

- 1½ cups firmly packed brown sugar
- ⅓ cup water
- 2 egg whites
- Few grains salt
- 1 teaspoon vanilla extract

Boil together sugar and water to 240° F. (or when small quantity dropped in cold water forms semi-firm ball). Beat egg whites stiff; gradually add syrup, beating constantly, until frosting holds shape. Add salt and vanilla extract.
